## EDUCATION AND TRAINING

05/2015 Bachelor of Science in Nursing, University of Michigan, Ann Arbor, MI  
05/2020 PhD, Nursing, University of Michigan, Ann Arbor, MI

## CERTIFICATION AND LICENSURE

07/2015 Registered Nurse, State of Michigan, 4704315440  
04/2017 Motivational Interviewing, University of Michigan  
106 hours of didactic and clinical training in Motivational Interviewing (MI) for health behavior change: the theoretical background and history of MI, core clinical strategies (e.g., reflective listening and eliciting change talk), multiple role play exercises, and a counseling simulation with a standardized patient and exchange of peer feedback about the encounter using the OnePass rating form. The instructor – Ken Resnicow, member of MINT – has extensive experience training practitioners in MI for health behavior change and conducting workshops in numerous US and international health care settings.

## ACADEMIC, ADMINISTRATIVE, AND CLINICAL APPOINTMENTS

09/2012-05/2020 Research Assistant, University of Michigan School of Nursing, Ann Arbor, MI  
05/2013-05/2014 Research Assistant, University of Michigan, Ann Arbor, MI  
06/2015-08/2015 Intern, University of Michigan Institute for Clinical & Health Research, Ann Arbor, MI.  
07/2016-06/2017 Registered Nurse, Medical Short Stay Unit, University of Michigan Health, Ann Arbor, MI  
06/2017-02/2021 Registered Nurse, Bone Marrow Transplant Unit, University of Michigan Health, Ann Arbor, MI  
09/2019-05/2020 Instructional Aide, University of Michigan School of Nursing, Ann Arbor, MI  
02/2021-present Registered Nurse, Cancer Center Adult Infusion, University of Michigan Health, Ann Arbor, MI  
08/2020-present Clinical Assistant Professor, University of Michigan School of Nursing, Ann Arbor, MI

## RESEARCH INTERESTS

Current scholarship aims to enhance cancer survivor safety and survivorship particularly during active systemic cancer treatment. My projects focus on multimodal pain and symptom management; exercise to combat treatment- and immobility-related complications during active cancer treatment; and innovative and interprofessional education for clinicians and early learners.

**Doctoral Dissertation:** Exercise to reduce chemotherapy-induced peripheral neuropathy: A pilot RCT

**Honor's Thesis:** Chronic neuropathic pain patterns in women before and after breast cancer surgery: A 12-month longitudinal comparative study

**ORCID:** 0000-0003-1522-638X
