

# SCIENCE LEARNING CIRCLES

**What:** Provides supplemental instruction and academic support for undergrad students. Circles are led by instructional aids who have advanced knowledge of the content area.

Science Learning Circles are an optional and supplemental resource coordinated by the U-M School of Nursing to assist students in achieving academic excellence.

**Who:** Undergrad students enrolled in any of the four courses: BIOL 212, NURS 218, NURS 236 and NURS 245.

---
