

Normal Labour and Birth Research Conference Preliminary Schedule of Events (May 25, 2018)

Sunday June 24, 2018

Evening Welcome Reception: Light Appetizers and Beverages, Meet and Greet Participants

6-7:30 pm EST

School of Nursing, 426 Kingsley Ave, Ann Arbor Michigan, 48109

Monday June 25, 2018

General Sessions Room 2250

8:00 am-8:10 Welcome: **Lisa Kane Low** University of Michigan Local Program Chair

8:10 am- 8:20 Welcome: **Soo Downe** International Steering Committee Chair

8:20am -8:30 Session Chair: **Evita Fernandez** M.D. Normal Birth India Chair 2020

8:30-9:15 am OPENING PLENARY:

Suellen Miller/ Stacie Geller: Let's ignite respectful, evidence-based maternity care everywhere for every woman!

9:15-10:15 am OPENING Plenary Speakers

Dr. **Melissa Cheyney**, Oregon State University, and **Thomas Peppard** from the HBGDKi project: Thinking Deep, not just Big: Building Rich Datasets to Identify the Supports and Barriers to Normal Birth, Growth and Development

10:15-10:30 Break to transition to concurrent sessions

10:30-12:00 am Concurrent Sessions

Room 2250	Room 2000	Room 1000	NIB 1330	NIB 1240 Workshop 10:30-11:30am
Celine Lemay: Midwife's knowledge: epistemic authority AND epistemic humility	Elise N Erickson: Physiologic Birth and Active Management of the Third Stage of Labor: A Latent Class Analysis of Risk for Postpartum Hemorrhage	Meena Kumari Dieterich: (Re)Conceiving the Freestanding Birth Center	Amy Romano: Home- based monitoring after inadequate GBS prophylaxis: identifying the earliest safe time for hospital or birth center discharge	Sheena Bryom: Social Media to Promote Maternity Care Advocacy

<p>Alys Einion: Not being/feeling with woman: a feminist narrative analysis of midwifery education and its relationship with the surveillance, control and disempowerment of women, reproduction and the midwifery profession.</p>	<p>Karin Cadwell: Intrapartum administration of synthetic oxytocin and downstream effects on maternal and child health</p>	<p>Tasha MacDonald: Home, Hospital or Birth Centre: What Ontario midwifery clients want to know about choice of birthplace</p>	<p>Soo Downe: New non-invasive infrared imaging technique to detect fetal position and movements during pregnancy and labour</p>
<p>Cinthia Torres: "Women's Autonomy Meets the Art of Midwifery: a qualitative inquiry into the persistence of uterine fundal pressure in the second stage of labor in Spain.</p>	<p>Mechthild M. Gross: Interinstitutional variations in oxytocin augmentation during labour in university hospitals in Germany</p>	<p>Susan Rutledge Stapleton: Freestanding Birth Centers Serving Vulnerable Populations</p>	<p>Melissa Cheyney: Placentophagy among women planning community births in the United States: Frequency, rationale, and associated neonatal outcomes</p>

12:00-1:30 Room 1240/1250 Lunch and Poster Sessions

1:30-2:15pm Plenary Speaker:

Holly Kennedy, Yale University: Asking different questions: Acting upon research priorities to improve the quality of care for every woman, every child

2:15-2:30 **transition to concurrent sessions**

2:30-4:00pm Concurrent Sessions

2:30-3:30 Room 1000	2:30-4:00pm Room 2250	2:30-4pm Room 2000	2:30-4:00pm Room 1330	Workshop 2:30-3:30pm
<p>Christopher Kargel: Women's Experiences of Osteopathic Manipulative Medicine as a Support for Normal Physiologic Labor and Birth</p>	<p>Carol Sakala: Blueprint for Advancing High-Value Maternity Care Through Physiologic Childbearing</p>	<p>Vivienne Souter: Outcomes in Low Risk Singleton Term Births by Intrapartum Provider Type</p>	<p>Louise M Page: Successful strategies for managing tokophobia</p>	<p>Irene Korstjens: How to address ethical values and practice in Shared Decision-Making in interprofessional everyday maternity care</p>
<p>Danielle Castro Janzen: Non-pharmacological methods for the relief of pain in labor and birth.</p>	<p>Ank de Jonge: What does value based health care mean for maternal and newborn care?</p>	<p>Jeremy Neal: Midwifery Presence in U.S. Hospitals and Labor Care and Birth Outcomes Among Low-Risk, Nulliparous Women: A Consortium on Safe Labor Study.</p>	<p>Priya Dieterich: Born of this: Understanding childbirth experiences in a context of ideological tension</p>	
<p>Megan Danielson: Quality Improvement to Promote High-Quality Maternity Care and Physiologic Birth</p>	<p>Lesley Ann Page: Why and how humanization of birth must be implemented globally</p>	<p>Denise Smith for Ellen Tilden: Comparing cesarean rates between U.S. hospitals with and without midwives: An application of the Robson ten-group classification system</p>	<p>Sabine Logtenberg: Fear of childbirth and Pharmacological pain relief in low risk women; secondary analysis of the RAVEL study.</p>	

4:00-5:00pm Poster Viewing Sessions Continue with reception and light refreshments

Tuesday, June

8:00-8:15am Welcome Kerri Schuling Local Committee Chair

8:15-8:30am Hannah Dalen Session Chair Welcome

8:30-9:30am **Neel Shah:** Designing Systems to improve care for every mother, everywhere

9:30-10:15am **Raymond De Vries:** A sociologist walks onto a maternity care unit: Differing perspectives on maternity care

10:15-10:30am Break

10:30-12:00pm Concurrent Sessions

Room 1000	Room 2250	Room 2000	Room NIB 1330
<p>Christiane Schwarz: Results from the report on midwife's involvement in adverse events during childbirth</p>	<p>Elizabeth Howard: Normalizing Birth in a High Risk Environment: Results from the Reducing Primary Cesarean Initiative</p>	<p>Michelle Collins: Good Night Baby! A Look at Co-sleeping in the Era of the Back to Sleep Movement in the United States</p>	<p style="text-align: center;"><i>Symposium</i></p> <p>Julia Seng: Overview of posttraumatic stress and the childbearing year, and attendant neurohormonal profiles.</p>
<p>Caitlin Wilson: Consultant Midwives in the United Kingdom: Effective, quality leadership in today's NHS but are we doing enough to move the role forward?</p>	<p>Trudy Klomp: Low body mass index and neonatal outcomes in low risk women in the Netherlands</p>	<p>Anna Blair: Antenatal and Perinatal Efforts Designed to Enhance Breastfeeding Outcomes: An Integrative Review of Self-Efficacy, Self-Confidence and Resilience</p>	<p>Elsa Montgomery: Online education and support for survivors of childhood sexual abuse and their healthcare providers during pregnancy, labor, birth and beyond.</p>
<p>Alys Einion: A Narrative Analysis and Proposed Model of Representations of Birth in UK derived Media</p>	<p>Stacy Lobst: Influence of Cervical Dilation at Admission on Intrapartum Interventions and Cesarean Delivery in Low-Risk Births</p>	<p>Kajsa Brimdry: Utilizing an algorithm to improve skin-to-skin care in the first hour after birth</p>	<p>Mickey Sperlich: Trauma-informed care for maternity care providers: Breaking cycles of abuse and vulnerability .</p>

12:00-1:00 Lunch

1:00-1:45 pm Saras Vedam: “They threatened and bullied me” Measuring mistreatment in North America

1:45-2:00pm transition to concurrent sessions

2:00-3:30 Concurrent Sessions

Room	Room	Room	Room	Room
<p>Corine Verhoeven The influence of continuous support of women in labour by primary care midwives on referral rates during labour in The Netherlands</p>	<p>Kaveri Mayra: Evaluation of Nursing and Midwifery education in 4 Indian states</p>	<p>Evita Fernandez: Does antenatal education increase the likelihood of normal births?</p>	<p>Heba Kamal FarajAllah: Women’s experiences of childbirth in the Arab world: A systematic review of qualitative and quantitative evidence</p>	<p><i>Workshop: 2:00-3:00pm</i> Sheena Byrom: 'Leave a mark, not a scar: promoting respectful maternity care in India'</p>
<p>Georgina Sosa: Midwifery one-to-one support in labour: More than a ratio</p>	<p>Danielle Castro Janzen: Obstetric Nursing Residency: an answer for the excessive intervention in Birth</p>	<p>Christine Morton: Childbirth Education to reduce NTSV cesarean birth</p>	<p>Sangheetha Parthasarathy: From cultural competence to cultural humility - changing the Indian birth landscape</p>	
<p>Tamar Kabakian-Khasholian: Implementation of a labor companionship model for integration at public hospitals in three Arab middle-income countries</p>	<p>Suzanne Thompson: Designing a midwifery educational intervention to support the development of physiological childbirth competences among student midwives</p>	<p>Kathrin H. Stoll: A survey of consumer preferences for midwifery care, place of birth and normal birth, prior to pregnancy in eight high-income countries.</p>	<p>Raymonde Gagon: Women’s experience of pregnancy and childbirth: transcendent, confusing or confrontational?</p>	

3:30-3:40 pm Transition to Concurrent Sessions			
3:40-5:10pm Concurrent Sessions			
<p>Amanda Hutcherson: An exploration pre and post developmental intervention, of aspiration, confidence and capability to access a BSc midwifery programme in women who have not had higher education immediately after compulsory schooling.</p>	<p>Melissa Cheyney: No differences in outcomes: Home and birth center births in the United States compared</p>	<p>Nathalie Leister: Characterization of women attended at the Welcome Group of Casa Angela freestanding birth centre in Sao Paulo, Brazil</p>	<p>Jeremy L. Neal: Applying a physiologic partograph to Consortium on Safe Labor data to identify opportunities for safely decreasing cesareans among nulliparous women.</p>
<p>Caitlin Wilson: Continuity of care: an exploration of 3rd year student midwives' experiences and views of their readiness to work in a continuity of care model at the point of registration</p>	<p>Nancy A. Niemczyk: Factors Associated with Prolonged Second Stage Labor in Physiologic Childbirth</p>	<p>Marlies Rijnders: The road to an integrated CenteringPregnancy. An effect evaluation</p>	<p>Marit L. Bovbjerg: Neither low (<7) nor very low (<4) 5-minute Apgar score accurately or consistently predicts neonatal morbidity or mortality</p>
<p>Marianne Nieuwenhuijze: "You are my inspiration": Student-midwives thoughts on the meaning of role-models for becoming a midwife a qualitative study.</p>	<p>Adriana Amorim Francisco: Perineal pain and healing after Light-Emitting Diode therapy</p>	<p>Gertrud M. Ayerle: Innovative birth environment in the hospital setting: the multicentre trial "Be-Up" in Germany</p>	<p>Nicole Carlson: Comparing labor interventions & outcomes in low-risk, multiparous women between U.S. hospitals with & without midwives: A Consortium of Safe Labor investigation</p>

6:30-9:00pm Optional Dinner Event

Wednesday, June 27, 2018

8:00-8:15 Session Chair: Timothy Johnson

8:15-9:00 Franka Cadee The global contributions of midwifery

9:00-10:00 Soo Downe: The WHO Guidelines for Intrapartum Care: Evidence and Practice Implications

10:10:30 Break

10:30-12:00 Concurrent Sessions

Room	Room	Room	Room
<i>Symposium:</i> Ank de Jonge: Symposium on the IUGR risk selection (IRIS) study Myrte Westerneng: Pregnant women's experiences with a third trimester routine ultrasound	Bonnie Ruder: "An anthropological approach to investigating clinical success rates in obstetric fistula repair in Uganda"	Lisa Kane Low: Midwifery leadership in Reducing Primary Cesarean by promoting physiologic birth care practices	Jennifer Vanderlaan: Using an obstetric comorbidity index to select a sample of women with high obstetric risk
Viki Verfaillie: Evaluating the effectiveness of routine fetal biometry during the third trimester of pregnancy in reducing severe perinatal outcomes	Jennifer Stevens: Descriptive analysis of midwifery led birth centers (MLBC) in low and middle income countries (LMIC)- a pilot study	Maria Cristina Gabrielloni changed to Danielle Castro Janzen: Project of Improvement and Innovation for the Care and Teaching of Obstetrics and Neonatology (APICE-ON)	Marit L. Bovbjerg: Waterbirths are not associated with harm: a propensity score analysis
Jens Henrichs: Cost-effectiveness of routine third trimester ultrasound screening for intrauterine growth restriction: a nationwide randomized trial in The Netherlands	Evita Fernandez: Midwifery model of public private partnership in India: a pioneering enterprise	Michelle Collins: Nitrous Oxide: Best Kept Secret in Europe that the United States is Now Discovering	Holly Horan: Territorial Biologies and the Premature Body: Maternal Stress and Gestational Age at Delivery in Cayey, Puerto Rico

12:00-1:00pm Lunch

1:00-2:00 Gene Declercq: What do the numbers tell us? The good, the bad, the complicated, and the challenging.

2:00-3:30 pm Closing Panel Presentation

Putting “too much too soon and too little too late” into Context

Panel Moderator: Gene Declercq

Panelists:

Christine Morton: Managing the space between critical safety check lists and individualized care to support healthy physiological childbirth.

Saras Vedam: Shared decision making: is everyone’s voice being heard

Evita Fernandez: Making change country-wide by promoting healthy physiological childbirth care

Leseley Welch: Where is health equity in the approaches used to address prevention of material mortality and promotion of healthy birth.

3:30-4:00 Closing: Next Annual Conference
